

InfoExpo 2011

9. November 2011: Basel, UBS Ausbildungs- & Konferenzzentrum Ausstellung

GC Columns

Agilent Varian J&W, BGB Analytik, GL Sciences, Restek, SGE...

HPLC Columns

Agilent Zorbax, ChromTech, Cosmosil, ES Industries, Grace (Alltech), Grom, Hamilton, Inertsil, Kromasil, L-column, LiChrosorb, LiChrospher, Nucleosil, Partisil, ProntoSIL, Restek Allure - Pinnacle - Ultra - Ultra II, SIELC, Sumichiral, Superspher, Ultron, Vydac, Zirchrom...

uHPLC Columns

Agilent Zorbax, Cosmosil, Grace VisionHT, Inertsil, Restek Pinnacle & Ultra II...

GC Accessories

Liners, Septas, Ferrules, Vials and Caps, Syringes, Tubings...

HPLC Accessories

Vials & Caps, Ferrules & Fittings, Sample Loops, Tubings, Spare Parts & Deuterium Lamps, Solvent Filters...

Instruments

Gas Generators, Leak Detectors, Flow Meters, CombiPAL, Flash Systems...

Sample Preparation

Agilent SampliQ SPE, QuEChERS and Bond Elut, Restek Q-sep QuEChERS, Syringe Filters, Filter Vials, Flash Columns, Solvents...

ITEX-2 Option for CombiPAL

Thermal desorption offers a cost-saving and high sensitivity alternative to conventional sample preparation methods for the analysis of trace level organic chemicals. The technology combines efficient sample extraction, with selective analyte concentration and rapid transfer of target compounds to the GC, GC-MS system or other vapour-phase analysers like e.g. Enose sensors...
