Thermo Fisher Scientific and Dionex: A Winning Combination

Dionex is now a part of Thermo Fisher Scientific, and its products are sold under the Thermo Scientific brand, bringing leading capabilities in ion chromatography, liquid chromatography, and sample preparation and creating exciting new possibilities for scientific analysis.

Thermo Fisher's leading positions in mass spectrometry and laboratory information management systems complement Dionex' strengths in ion chromatography and high performance liquid chromatography. Together, we offer our customers new integrated solutions based on a powerful combination of leading instruments, software, consumables and services.
